Job Summary:

Oliyo is seeking an experienced Full-stack Developer to join our expanding development team. This role is pivotal in crafting and refining the technology that drives our innovative web applications. With a strong foundation in PHP, ReactJS, and MySQL, you will play a key role in developing front-end and back-end solutions that enhance user experiences. Working within a large, dynamic development team, you will contribute to projects that are at the heart of our business operations. If you are passionate about building scalable, efficient web applications and eager to collaborate with a team of skilled developers, we want to hear from you.

Key Responsibilities:

- Develop high-quality web applications by integrating front-end and back-end technologies using PHP, ReactJS, MySQL, HTML5, and CSS3.
- Participate in the entire application development lifecycle, from concept to deployment, with a focus on coding and debugging.
- Work collaboratively with UI/UX designers to ensure the technical feasibility of designs and create responsive, user-centric interfaces.
- Contribute to the optimization of applications for maximum speed and scalability.
- Assist in database design, development, and management in MySQL, ensuring data integrity and performance.
- Engage with the development team in code reviews, sharing knowledge and practices to improve code quality and team skills.
- Stay updated with emerging web technologies and apply them into operations and activities.
- Collaborate across departments to understand user needs and translate them into technical solutions.

Qualifications:

- Solid experience as a Full-stack Developer with a focus on PHP, ReactJS, HTML5, CSS3, and MySQL.
- Proficiency in developing responsive web applications and an understanding of web design principles.
- Knowledge of database design, query optimization, and database management.
- Experience with version control systems, preferably Git.
- Strong problem-solving skills and the ability to work effectively in a team environment.
- Good understanding of software development methodologies, particularly Agile.
- A commitment to continuous learning and improvement.
- Bachelor's degree in Computer Science, Engineering, or a related field is preferred.

Why Join Us?

- Be part of a large, innovative development team that's at the forefront of digital transformation.
- Opportunity to work on diverse projects that challenge and grow your skill set.
- Competitive salary, comprehensive benefits package, and a supportive work environment.
- Engage in continuous learning and development opportunities within a company that values creativity and innovation.
